This course is a study of the biological, psychological and sociological perspectives of human sexuality. Historical, cross-cultural and ethical issues are considered in the course.

PSY 212 Abnormal Psychology* (3-0-3)

Offered Fall, Spring, and Summer Semesters

Prerequisite: PSY 201

This course is a study of the nature and development of behavioral disorders including the investigation of contemporary treatment procedures.

PSY 225 Social Psychology (3-0-3)

Offered on a rotational basis

Prerequisite: PSY 201

This course is a study of individual behavior as influenced by social roles, group identification, attitudes and values.

PSY 299 Research in Psychology (0-9-3)

Offered on a rotational basis

Prerequisite: Instructor Permission

This course provides an opportunity for students to investigate a faculty-approved topic related to psychology using the application of practical research methods. The course is designed for students in an Associate in Arts or Associate in Science program to explore part of their major in more depth by working one-on-one or in small groups on faculty- or student-designed research projects.
