

HEALTH AND SAFETY

GTC Police and Environmental Safety Departments

The mission of the GTC Police (https://www.gvltec.edu/about_greenvilletech/police/) and Environmental Safety Departments is to promote a safe and secure environment for students (https://www.gvltec.edu/student_resources/student_life/healthandsafety.html), faculty, staff, and visitors on Greenville Technical College's campuses. Sworn police officers and safety personnel continually provide services to all campuses (https://www.gvltec.edu/about_greenvilletech/police/campus-safety.html) 24 hours a day, 7 days a week. Faculty and staff must collaborate with members of these departments to prevent crime and report any activity that could impact public health and safety. The guidelines that follow are intended to foster safe conditions for teaching and learning.
