

FIRST YEAR EXPERIENCE (FIND YOUR E)

Amber Morgan (Amber.Morgan@gvltec.edu), Department Head

All new college students face challenges, whether right out of high school or returning to begin a new chapter of their life. It is important to acknowledge that everyone's experience is unique. First Year Experience (https://www.gvltec.edu/academics_learning/arts-sciences/academic_connections/fye.html) (FYE) supports students in creating a successful Greenville Technical College experience through "Find Your E."

Faculty and staff host activities to promote student engagement, encourage students to seek academic assistance, and successfully transition into college by discovering all the resources available at Greenville Tech.

Additional information regarding first year experience (https://www.gvltec.edu/academics_learning/arts-sciences/academic_connections/fye.html) is available on the college's website.
