

STUDENT ASSISTANCE AND RESOURCES (STAR)

STAR Center

Using a case management approach, STAR Center staff members provide basic needs support so students can achieve. They refer students enrolled in career and technical education majors who need financial assistance with books, program kits and tools, uniforms, credentialing exams, and transportation to the PACT Program. The PACT Program is funded through the Carl D. Perkins Career and Technical Education Act (Perkins Grant). Additionally, they serve all students by distributing emergency assistance from the Greenville Tech Foundation, grocery essentials from the Caring Corner food pantry, thrift store vouchers, and more. Beyond the college, the program connects students to community and government resources.
